**ADDITIONAL INFORMATION SUPPORTING NJD** (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite): The project consists of constructing a residential and business development.

The site is cropped site with a 0.2 acre & a 0.3 acre palustrine wetland located in a closed basin. A site visit was conducted on 14 July 2004 and it was determined that the wetlands are isolated. In addition the following information was reviewed: Certified NRCS wetland determination, soils data, aerial photos, and topo map. The wetlands have no obvious interstate commerce ties, nor does it appear to be able to float a boat for navigational purposes.
